AFTERNOON DISPATCHES.

Sherman makes an Unsuccessful

Assault!

HOOKER MORTALLY WOUNDED!

HEAVY LOSS IN OFFICERS!

Nothing New from Grant!

OFFICIAL BULLETIN.

WASHINGTON, June 28.—To Gen. Dix:

A dispatch from Grant, dated yesterday,

says there are no operations going on in

front except from our own guns, which

fire at the bridge near Petersburg, 2,000

yards distant.

Petersburg papers, of the 25th, state

that Hunter is striking Jackson River

about forty miles north of Salem, and they

say if he reaches Cornington, which they

suppose he will do with most of his forces

but with the loss of material, he will be

safe. The same papers say that General

Wilson destroyed a train of cars loaded

with cotton and furniture, burned the

depot at Burkville, destroyed the track

and was still pushing South. All railroads

leading into Richmond are now destroyed,

some of them badly.

A dispatch from Sherman just received

reports yesterday that we made an un-

successful attack on the enemy's position.

We lost between 2,000 and 3,000—par-

ticularly heavy in officers. Gen. Hooker is

reported mortally wounded. Col. McCook

commanding a brigade, wounded very

severely. Col. Barnard, 40th Ill., and

Augustine 56th Ill. killed. We took

few prisoners, but don't suppose we inflicted

a very heavy loss on the enemy, as he

kept behind his parapets.

(Signed) E. M. STANTON.

FROM MEMPHIS.

CAIRO, June 28.—Memphis papers

say that on the morning of the 22d, a

detachment of Marmaduke's command 600

strong attacked two companies of the 12th

Iowa Infantry, stationed near the mouth

of the White river, and after a severe fight

were repulsed with the loss of 25 killed

and wounded. Our loss is 1 killed and 5

wounded.

The removal of the gunboat Tyler from

that station probably emboldened the re-

bels, and but for the fortunate arrival of

a gunboat Lexington the result might have

been unfavorable to us. Our forces fought

desperately, repelling several charges of

the rebels and drove them from the field.

Deserters who surrendered to gunboats

below say Marmaduke is moving on Little

Rock to attack Gen. Steele and capture

the city if possible.

THE NEWS.

Our midnight dispatches bring us no news of startling import, but we gather from the various correspondents, that our forces are by no means idle. Gen. Foster with a strong column had worked his way up past Aiken's Landing, on his way to gain a commanding position against Fort Darling. Should he be successful in his efforts the most important results may reasonably be looked for from his expedition.

A strong force of rebels, under the direction of Pillow, on the 24th inst., demanded the surrender of La Fayette, Ga., held by a small body of our forces. The demand was not complied with, when he made the attack and was repulsed with severe loss.

The rebels paid dearly for an attack on two of our corps in Grant's army, as our morning dispatches assure us, sustaining a bloody repulse.

The amount of damage inflicted by our raiding parties on the communications of Richmond is enormous.

By our afternoon despatches we have the painful news that Gen. Hooker was mortally wounded yesterday in an unsuccessful assault on the enemy's works. In addition to this calamity we lost heavily in officers, and some 2000 or 3000 men.

According to the admission of the rebels Gen. Hunter has inflicted immense damage on their railroad communications, and got off safely.

There is nothing especially new from Grant.

Gold opened at 38 and closed at 30.

Decline of the Rebel Cavalry Force.

The cavalry now employed by the rebel army compares very unfavorably with that which they had in the beginning of the war. Then the riders were the wealthy and educated young men of the South, who took into the service their best horses. The previous practice of these men in the saddle and with firearms rendered them formidable foes; but they are mostly dead or tired of fighting, and the rebels have no more good horses. The cavalrymen at present operating against us have generally been taken from the ranks of the Confederate infantry. They are men of very little dash, and having in most cases only broken down horses are capable of doing very little serious work. In a word, this cavalry, at least in Virginia, has ceased to be a very important adjunct of the rebel service.

BAU.—The following from the La Crosse Democrat indicates a pitiable state of things in that city.

"The social state of society is becoming exceedingly desperate and corrupt, and it requires timely examples just now to put a stop to such proceedings. We thought that any place which could stand the teachings of 'Brick's' paper and preserve its virtue long, must be inhabited by something more than mortals. Copperheads and snobs seem to be working their legitimate fruits on the citizens of La Crosse.

NOT NORTHERN MUDDELS, but Southern chivalry, are responsible for such names as these—they are genuine and historical: Bull Run, Snicker's Gap, Slaughter's Mountain, Polecat, Station, Gum Neck, Nigger Foot Road, Buzzard's Roost Pass, Cockeysville, Souffletown, Skinner's Neck, Mob Jack Back, Yellow Tavern, Marsh-Scrubble Town, Snaketown, Jericho Marsh, Piping Tree, Pampkinvine Creek, Ox Neck, Guinea's Branch, Snake River Hol-

Rise in Subscription Price.—The Chicago Times, Tribune, Journal, Staats Zeitung and Daily Union have been compelled to raise their subscription price to \$13.00 per year to city subscribers and \$12.00 when sent by mail. The cost of publishing makes such an advance imperatively necessary. If stock keeps on advancing there will be no alternative for other papers throughout the country, but to do the same thing.

BRITISH RAILWAYS.—There are now in the British Islands three hundred and seventy-five distinct railway companies, who own eleven thousand five hundred miles of road. They carry above thirty million passengers yearly, and above thirty million tons of merchandise and minerals. They give employment to probably not less than two hundred thousand persons.

An apple tree in the garden of Dr. Kingman in North Bridgewater, Massachusetts, has lately produced a beautiful white rose, perfect in development and fragrance, but on a stem the leaves of which appeared to be a union of the qualities of the rose and apple leaf. This curious phenomenon appeared about half way between the time of apple blossoms and of roses.

RACINE & MISSISSIPPI R. R.—This road earned the first week of the present month \$16,104.69 an increase of \$7,129.12 over last year. The receipts from January 1st to June 7th, 1864, were \$216,281.37, against \$134,973.57 in 1863.

Of the church property taken by the Spanish government and sold between 1855 and 1863, the value was \$30,156,800, and the value of that remaining unsold is \$13,525,000.

EXAMINATION AT THE BLIND INSTITUTE.—The annual public examination of the Institute for the blind takes place to-morrow.

THE old neighbors of General Rosecrans in Licking county, Ohio, have presented him a handsome silver service.

THE NEWS.

The Galveston Trempealeau Co. Transcript says that a paint similar to that called the Ohio paint, so extensively used on depot buildings, has been discovered in that vicinity. It is a very pleasant shade of brown, and ground in linseed oil will make a good paint for the outside of buildings, fences &c., quite an acquisition in these high-priced times. The supply is said to be inexhaustible. The Grant Co. Witness says the rumors of prevalence of small pox in Plattville, are without foundation, as there is not a case of genuine small pox in the place. The same paper speaks of copious rains in that vicinity, but says the village of Plattville did not share to any extent in the moist blessing. The Reporter states that the wool clip of Fond du Lac county the present season, has brought to the farmers of that county \$87,500, also that the drought has become awful in this State. In Fond du Lac county on all high and sandy lands the wheat crop is lost beyond all recovery. On some of the table lands the seed may be secured, but no more than that. On the low lands and prairie about half a crop may be realized, and a few pieces may yield the average amount. Oats are almost a total failure everywhere. Ripon has the best show in the State for grain. At that place and Rosendale the wheat stands from 16 to 20 inches high, of good color, and is heading out. Even that will fail without rain in siling time. Corn looks well in places, but Potatoes need rain badly.

The Madison Journal understands that Lieut. Col. Lovell will shortly relieve Col. Green, as A. A. Provost Marshal General of this State. Lieut. Col. Lovell's numerous friends will be glad to welcome him back to his old position. The annual meeting of the State Teachers' Association, which was to be held in La Crosse in July, is indefinitely postponed. The refusal of the usual passes by the railroads, and the enlistment in the 100 days service of many prominent teachers are the causes of this postponement. The La Crosse Democrat of the 25th, says: "This morning the gay little steamer 'Anna Johnson,' was launched at the Davidson Line Dock Yard. She was launched successfully and looks as gay as a country schoolmarm on the 4th of July. She will go into the upriver trade, in light draught, has strong engines, and will be a low water pet. Being a 'low water pet,' she will naturally be popular this season. The Oconto Pioneer says a gentleman, constituting one of a small party of ladies and gentlemen from Chicago, while out trout fishing on the Pensaukee river, accidentally shot himself with his pistol. It was in his pocket and while running along the bank, he jumped over a log and the jar caused it to explode. The ball entered the thigh, traversed the leg to the knee, where it now remains. A new Presbyterian church was dedicated at Oconto on the 19th inst. The Central Wisconsin published at Wausau, Marathon Co., says the river at that point is lower than it has been known for many years. Business is suspended at the different mills for want of water to drive logs. The crops are suffering much for want of a shower. On the whole there is a gloomy future before us if we are not favored with heavy rains soon. The thermometer has ranged from 104 to 105 degrees. The Madison Patriot prays for the recovery of Mr. W. R. Taylor, who a short time ago was bitten by a rattlesnake. It must be rough on Mr. Taylor, taking it for granted that the prayer of the righteous man availeth much.

A LETTER from Rome in the Cologne Gazette says that the Emperor of Mexico, before leaving the Roman capital, paid to the fund of Potosi's Pence a sum of sixty thousand francs.

THE persons employed in the Washington Arsenal have opened a subscription for a monument in memory of the sufferers by the recent explosion there.

IN the state of Connecticut last year there were 3,467 marriages—234 less than in 1863, 8,842 deaths—99 less than in 1862.

IT is a curious fact that the Cathedral of Notre Dame in Paris, though five hundred years old, was never consecrated until a few weeks since.

THE Ohio coal beds, salt works, iron mines and oil wells are being worked more extensively than ever before, and the owners and proprietors are realizing large fortunes. One man who couldn't buy a hat a few weeks ago, has struck an oil well which he now holds at \$100,000.

A LETTER of one of Dick Taylor's officers confesses the murder of the negroes with the captured train of Gen. Steele in Arkansas. He says: "The Yankees had a full negro regiment, and the Choctaw Indians fell upon them and killed every one."

SPRING IS THE SEED-TIME OF DISEASE.—All who are suffering from indigestion to think, languor, fatigue after walking, palpitation of the heart, distress after eating, heartburn, depression of spirits, desire for solitude, sick and nervous headache, and a number of other affections of this class, rendering a person unfit for the society of his friends or the world, we say, take the Red Jacket Stomach Bitters, which are sold by all druggists throughout the country.

What the People of Georgia Think.

The following is an extract from a letter written in Walker county, Ga., June 8th, which no doubt expresses the sentiment of the people in the north-western portion of that State:

DEAR FRIEND: Times have changed wonderfully since you left this section. There was in the momentary terror last the dreadful Yankees should come here, and we harassed ourselves, as you recollect, over the wrongs we anticipated, and I confess I trembled for you when I learned that you had determined to seek their lines, and trust yourself to their tender mercies.

Well, they came at last, and I confess I kept myself secreted for several days; but finally learning that they treated the people well, I came out from my hiding place and went home. This was last fall. Being assured of protection I sowed some wheat, and this spring planted a lot of corn, and I never saw a better prospect for a crop.

Nearly all the people who were in the Southern army, who reside around here, have deserted, and are now very peaceably cultivating their farms. There has been no backslacking nor guerrilla fighting around here for months; indeed, the people of Georgia discourage such a species of warfare; they went into the contest to either whip the Yankees honorably or submit; they cannot whip them, and they therefore are for giving the thing up. There has never been better order in the community than at this time, and there is every prospect of its continuing. I am desirous of seeing the struggle ended. I think we can live harmoniously with the Yankees, for I find them the cleverest fellows living.

DECISIVE BATTLES.—There has been very much said about the indecisiveness of numerous battles in this war, but in fact the Army and Navy Journal says there have been many many decisive battles. We may look at the decisive of fields, actions in three aspects: First, battles which are decisive simply of the field, of which we have a favorable example in Murfreesboro, and an adverse example in Fredericksburg. Secondly, battles which are decisive of the war in large States, or over great surfaces of country, of which Fort Donelson, which ended the war in Kentucky—Pen Ridge, which ended it in Missouri—and Vicksburg, which ended it on the Mississippi, are examples. Thirdly, battles which are absolutely decisive of the whole fortunes of the war and of the fate of the parties of countries involved—of which latter class, in its largest aspect, we have perhaps not yet had an example. Professor Greasy, of England, wrote a book entitled the "Fifteen Decisive Battles of the World," and by decisive battles he meant such battles as affected the whole course of history, as regards the great combatants, and which, had they issued oppositely to what they did, would have resulted in a condition of affairs permanently different from that which we now see or have seen. Taking upon such battles by turning up them through the subsequent and intricate course of historical events, as Greasy does, we say whether or not such a battle has been fought. We cannot yet see events through the long perspective as our posterity will be enabled to do, a hundred years hence, nor can we take in the full scope and bearing of actions that have already occurred or are now occurring.

Gravel water is now used for drinking and the toilette. It is advertised in London in the following style: Its use is attended by a sensation which has been aptly described as the perfume of purity. Being perfectly innoxious and tasteless, a few drops make a most refreshing and invigorating addition to the tumbler of plain drinking or soda water, from which they remove all traces of soluble organic matter—a fact of infinite importance to the voyager or the invalid.

The Soldiers and Gen. Grant.
It is wonderful how entirely the army of Gen. Grant is full of his praises. No matter how severely wounded, no matter how intently suffering, if there is strength enough in him to speak, every man in all these hospital wards will tell you, if you ask him his opinion. "He is one of us, this Unconditional Surrender General; and he will bring us through, God-willing, as sure as the sun shines." Then they will tell you stories of the watchfulness and care, the fearlessness and obstinate intrepidity of this man whose plume they delight to follow, how he is everywhere, by night and by day, looking after the comfort of his men, and quietly prosecuting the strategic work of the campaign; how he rides unexpectedly to the remotest outposts, speaking a pleasant word to the pickets if faithful on duty, and administering reprimands if not vigilant and watchful; how he shuns fuss and show, going about often with only an orderly, instead of a dozen or so of foppish, bedizened aids; how his staff, plain, earnest men like himself, get down at times from their horses, that the sick and wounded fellows, straggling hospital hands, may rest their weariness by riding to their destination; how, in a word, he is an earnest, thoughtful, resolute, kind man, sympathizing with the humblest soldier in his rank, penetrated with a solemn appreciation of the work given him to do, and determined, by Heaven's help, to do it, right on the line he has occupied.
And when they tell you this, these maimed heroes lying here in these Fredericksburg hospitals, they add always, with a magnificent elan, an energy which has a grand touch of pride in it, and we'll help him to do this work; we'll stand by him to the end, come what may, we'll perish every man of us rather than have him fall in a cause dishonored, we'll be proud of every scar won in fighting where he leads. What is it—can any one tell us?—that makes two hundred thousand men put trust and confidence so complete in this simple-hearted former General, who, three years ago was husking corn or following the plow on the far western prairies?—Correspondent Harper's Weekly.

Janesville, June 29, 1894. 629p1d4w

FARMERS, TAKE NOTICE!

The undersigned are having made at Beloit, Wis., one hundred of those Reapers known as the

Cheap, or Webber Reaper!
Notwithstanding the increase of nearly double in price over other years of all machines put in the market, we are going to sell for 1894 at about the same prices as before. Our prices at the shop are \$110 cash for single Reapers, for Reapers and Mowers \$140. We are making fifty Reapers, which will be warranted to good work. They will be made of steel bars of the Buckeye pattern, except the hinges.
Those buying Reapers alone can have Mowers the next year or thereafter for the same price, as the difference between reaper and mower.
We do not deem it necessary to extol our Reapers, for it is already known to be the only two-horse Reapers in use. Notwithstanding a great many are used with two horses, they ought to use three or four, and some of them six, to be sure to do the work as ours, and to do it easily.
Those sending in their orders early to be sure of a machine, as positively only one hundred of them will be built, and we will warrant each and every machine to

Work Well in all Kinds of Grain!
The Reapers will be different from last year. They will be the over-hauling reel and have six teeth instead of four keeping the reel, holding the grain to the sickle steady.
They will be shipped to any depot in Wisconsin or Illinois. Ten per cent. will be added if sold on time. One half the first of September, 1894, the balance the 1st of October, 1894.
Those buying machines will confer a favor by giving this machine publicity in their respective neighborhoods. When material gets to be so scarce, and we intend to make it a fifty dollar machine, and should have done it but for the unprecedented high prices of everything to construct machines with.

The Reaper Shop at Afton!
will attend strictly to the repairing of the Webber Reapers. Some others wanted. We are prepared to change from chain to belt, put in cutter wheels upon short notice. Men will be on hand to repair promptly. Charges light as the cost of material will admit. We will manufacture and repair all places, consequently we will be prepared to repair. Work solicited. All orders should be directed to
